JUDGE BENSON'S NOMINATION

(Editorial in Portland Oregonian)
 THE astonishing assault upon Judge Benson by Governor West is without excuse or justification. Its inspiration is either that he is deeply disappointed at the defeat of his own appointee to the supreme bench, or he seeks to make capital now for the benefit of a democratic nominee against Judge Benson, or probably both. The Oregonian has no idea that Judge McNary has had any part in this latest shameful outgiving of the governor's, for he has at all times shown a zealous and honorable desire for a correct settlement of the judgeship contest.

It is to be remembered that the issue between Judge Benson and Judge McNary as candidates has throughout been exceedingly close. In the first instance Judge McNary appeared to be nominated, but discovery of an error in the Multnomah county tally sheets reversed the situation, and Judge Benson was several votes in the lead. By arrangement between the candidates various selected precincts throughout the state were re-counted, but at no time did Judge McNary overcome Judge Benson's advantage except that once there appeared to be a tie.

There was recently a final stipulation, which both candidates agreed should be conclusive. By a correct interpretation of its terms, which no one disputes, Judge Benson was found to be nominated by a majority of one. Meanwhile the final day, September 8, for acceptance of the nomination was imminent.

Now comes the belated discovery that there were some uncounted votes in a remote Curry county precinct. This was made at Salem several months after the primary election, and apparently after the other discovery that Judge Benson was certain, unless something drastic was done, to get the certificate of nomination.

It was natural and reasonable for Judge Benson to decline to prolong the controversy, and to insist that the conditions of the final agreement between him and Judge McNary be followed. The Oregonian is quite sure that Judge McNary has no fault to find with the attitude of Judge Benson, and that he accepts the result without reservation or hesitation.

Henry L. Benson has a fine record as citizen, as attorney and as judge. It does not become Governor West to assail him as a pettifogger or sharp practitioner. He has fairly won the nomination after a systematic and clean cut effort to ascertain the will of the people in the primary, and he is entitled to the same consideration as every other judicial candidate on the republican ticket.

THE CHEAPEST ADVERTISING

Copyright 1913 by Geo. E. Patterson
 "A newspaper advertisement strikes the eye the moment the sheet is opened," says W. L. Douglas, the big shoe man, who spends about \$200,000 annually in newspaper advertising. He says further that that very fact is the reason he chooses the newspaper rather than any other advertising medium. This is one very good reason why newspaper advertising is the cheapest, regardless of price.
 Let us look at the different kinds of advertising, such as personal solicitations and personal letter writing, and see how they compare with newspaper advertising. We do not refer to circular letters, bills, etc., because from the standpoint of the local mar-

chant these only act as an auxiliary or reinforcement to newspaper advertising, and successful advertisers regard them only as such. But personal solicitation by the local merchant and writing prospective customers personal letters do compete with newspaper advertising.
 Personal solicitation and personal letter writing are very expensive to the local merchant, in fact, so expensive as to be practically prohibitive.

Take personal letter writing as an illustration, and we take this as illustration because it is far cheaper than personal solicitation. The right kind of a \$5 ad put in a paper with 1,000 circulation would be read by 5,000 people. Same substance put into a letter, each letter typewritten, mailed under 2-cent stamped envelope, addressed and sealed as personal letters must be, and sent to 5,000 people would cost \$100 for postage stamps and \$100 extra for printing envelopes and letterheads, stenographer to write letters and address envelopes, etc., making a total of over \$200. And the cost to personally solicit 5,000 people would be something enormous.

Newspapers are run for the advertiser. All other items of information are put in to make the paper popular and sell the paper. This fact alone makes newspaper advertising the cheapest advertising.

BIG EATERS GET KIDNEY TROUBLE

TAKE SALTS AT FIRST SIGN OF BLADDER IRRITATION OR BACKACHE

The American man and woman must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizziness, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoon full in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

SOME MINOR WAR NEWS FROM EUROPE

LITTLE STORIES FROM THE FRONT THAT ARE COMING IN THROUGH THE CAPITALS OF THE NATIONS NOW FIGHTING EACH OTHER—SOME ARE TRIVIAL, BUT ALL ARE INTERESTING AT THIS TIME.

VETERAN HAS EIGHT SONS IN THE FIGHT

United Press Service
 LONDON, Sept. 11.—The enthusiastic manner in which all England is flocking to the colors is shown in the enlistment of all the male members of some families in various parts of the kingdom. Henry Ellison, an ex-Grenadier Guardsman, living at Battersea, has eight sons serving with the colors. Four of these are with the British troops who have been stubbornly contesting the advance of the Germans in Northern France. Another brother of the same family is on a British warship. Still another, who emigrated to Canada, is en route back to Old England with a Canadian regiment.

A seventh has just resigned from Chivers & Sons, a local firm, to enlist. A sister of these seven warrior brothers is married to a bluejacket, who is on one of the battleships in the North Sea.

GETS IN PRISON TO ESCAPE ARMY DUTY

United Press Service
 LONDON, Sept. 11.—A laborer who fired three stacks of hay at Newcastle said he did it to get locked up—and to be put out of the way of the Germans.

ENGLISH POLES WILL BE FORMED FOR WAR

United Press Service
 LONDON, Sept. 11.—In the event of a serious danger of German invasion, the war office will be able to rely on having among the defenders all the Polish societies in London. It was resolved to form at least one legion of English Poles for this use.

TO DARKEN HAIR APPLY SAGE TEA

LOOK YOUNG! BRING BACK ITS NATURAL COLOR, GLOSS AND THICKNESS

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant; remove every bit of dandruff, stop scalp itching and falling hair. Mixing the sage tea and sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Hair Remedy," thus avoiding a lot of fuss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application of two years hair becomes beautifully dark, glossy, soft and luxuriant, and you appear years younger.

CHURCH OPENED AFTER 7 YEARS

THOUGH UNDER CONSTRUCTION SINCE 1907, ST. PAUL CATHEDRAL IS NOT YET COMPLETELY FINISHED

United Press Service
 ST. PAUL, Minn., Sept. 11.—St. Paul's Cathedral, which is considered one of the grandest churches in the world, will be opened with a solemn mass tomorrow morning. During the seven years since the first work of clearing the highly elevated site on historic and beautiful Summit Avenue was begun, \$1,300,000 have been spent on the church. Archbishop Ireland has been in charge of the work. It probably will be two or three years more before the interior of the edifice is completed. The remainder of the work will necessitate an additional expenditure of about \$200,000. As that money has to be raised by subscription and the work cannot be completed until the money is forthcoming, the final completion of the work may be put off for several years. Work has been rushed unusually fast on the new cathedral for the last month because of the fact that the old edifice has to be abandoned. Practically the whole interior of the new church has been decorated and placed in its present condition in the month of August. The huge \$100,000 dome was finished about the middle of the month.

A Russian publication has just put out its one hundredth issue after many difficulties. Twenty-five of the previous issues were confiscated for seditious articles.
